## Chemical Engineer

I am a recent graduate with a GPA equal to 3.69 on chemical engineering . During my time at university, I have developed excellent time management and organizational skills due to a series of close-knit coursework deadlines and exams. As a result, I am incredibly adaptable and able to work well under pressure effectively. I am looking to secure a brand new opportunity in an innovative, friendly workspace, where I can utilize my soft skills and in-depth knowledge in chemical engineering
